

H.R. 2872, Continuing Resolution

(“Further Additional Continuing Appropriations and Other Extensions Act, 2024”)

Bill Summary – Updated January 18, 2024

The Feeding America Government Relations Team is providing a summary of nutrition provisions and other key provisions in the Further Additional Continuing Appropriations and Other Extensions Act, 2024. This is the third continuing resolution passed by Congress for FY24 to avoid a government shutdown.

This legislation was passed by the House and the Senate on January 18, 2024.

This bill funds some government agencies through March 1, and the remainder through March 8, and maintains fiscal year 2023 (FY23) funding levels until March 1, for key nutrition programs. This is the third continuing resolution consistent with what was negotiated between the administration and Congress in the [Fiscal Responsibility Act of 2023](#), also known as the debt limit deal.

Absent additional congressional action on FY24 appropriations or an additional continuing resolution, the government will experience a partial shutdown beginning March 2 and a complete shutdown on March 9. This bill does not impact the Farm Bill extension, which was authorized through September 30th, in the last Continuing Resolution.

Below are links to several helpful continuing resolution resources and a summary of key provisions in the legislation.
